SUMMARY

Motivated Junior Front-end developer with a strong foundation in web development technologies, including HTML, CSS and JavaScript. I have solid experience in technology, working as a System Analyst with a focus on data analysis, reports and dashboard development, and system support.

My career in technology began in 2014, and between 2018 and 2021, I had the opportunity to work as a math teacher, which gave me strong analytical skills and a structured approach to problem-solving. In 2022, I resumed my path in technology, focusing on Front-end development, where I have been specializing. I'm seeking a position as a Junior Front-end developer, where I can apply my academic knowledge, problem-solving abilities and creativity to contribute to innovative and impactful projects.

SKILLS

Front-end technologies: HTML/CSS, JavaScript, React, TypeScript, Next.js, responsive development

Back-end technologies: Python, SQL

Additional technical skills: UX/UI design, Git, GitHub, data analysis, Microsoft Excel, business intelligence tools, mathematics.

Soft skills: Creativity, perseverance, self-directed learning, analytical thinking, teamwork.
